Decking

Forma composite decking is our premium composite with a durable polymer outer shell encapsulating the board. This capping forms an impermeable layer that protects from scratching, staining and fading making it the ultimate carefree, low maintenance flooring.

Available in seven beautiful colours this stylish and sustainable decking board can instantly elevate any project into a luxury space.

The T-Clip fixing system allows boards to move freely with expansion and contraction preventing any buckling, twisting or warping. This clip is also conveniently hidden in the grooves of the decking board so there are no visible fixings through the top of the decking.

Our Locking Clip is similar to the T-Clip but with serrated teeth which locks the board in place. This ensures even expansion or contraction during hot or cold weather but prevents the board from sliding.

SPICED OAK
Forma Composite
Decking

Forma's 360° co-extrusion durable capping is not only scratch and stain resistant, it also beautifully replicates the natural grain, dual tone and texture of timber.

With a 25 year warranty and UV bleaching resistant technology Forma decking requires minimal maintenance to keep its vibrant colour.
