Composite Cladding For Grad®

LIGHT OAK  
Forma Click Combi

2026  
Winner

NEW

Forma Click is an award winning composite cladding system developed in collaboration with Grad. It combines Ecoscape's distinctive composite profiles with Grad's precision engineered aluminium rail substructure to create a clean, click-in wall covering with no visible fixings. Designed with architects, contractors and specifiers in mind, the system delivers a precise and repeatable installation method suited to both residential and commercial applications.

### Reduce Installation Time with 50%

Installation of Forma Click is streamlined by replacing conventional timber joists with Grad's durable aluminium rails and concealed clips. The boards simply click into place, creating smooth, uninterrupted surfaces while reducing installation time by up to 50 percent. The result is a faster build process and a refined finish that protects the integrity of the Forma profiles.

CHARRED WOOD  
Forma Click Large

Developed to overcome the limitations of traditional face-fixed cladding, the Forma Click system eliminates visible screws while ensuring accurate alignment and consistent ventilation. The concealed Grad rail and clip structure creates smooth, uninterrupted surfaces that enhance façade precision and support reliable long term performance across a wide range of wall and ceiling applications.

Inspired by the look of natural timber, Forma Click delivers warmth and texture without the need for painting, staining, or oiling. Its durable, low maintenance composite construction is backed by a 25 year warranty, making it suitable for a wide range of exterior applications.

Sustainability is integral to the design, with recycled and recyclable materials and a system that allows boards to be removed and reused, supporting circular construction and long term environmental performance.

Forma Click composite cladding boards are available in three widths and five colour options. The boards can be installed vertically, horizontally or at an angle.

NEW

DARK OAK  
Forma Click Combi

## Combi Rail

The Grad Combi Rail is engineered to accommodate the mixed-width Combi configuration, allowing 45mm (S), 64mm (M) and 119mm (L) Forma Click boards to be installed in a pre-set pattern. This creates architectural variation while maintaining precise 5mm shadow gaps and consistent alignment.

NEW

SILVER BIRCH  
Forma Click Combi

# FORMA® CLICK - COMPOSITE CLADDING FOR GRAD®

## Silver Birch

Available in 3 widths in 2500mm and 3600mm lengths

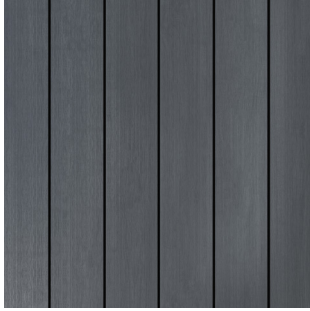

## Natural Oak

Available in 3 widths in 2500mm and 3600mm lengths

## Argent

Available in 3 widths in 2500mm and 3600mm lengths

## Dark Oak

Available in 3 widths in 2500mm and 3600mm lengths

## Charred Wood

Available in 3 widths in 2500mm and 3600mm lengths

Forma Click is available in a striking black charred finish inspired by **Japanese Yakisugi (Shou Sugi Ban)**. This high sheen surface replicates the look of burnt timber while delivering the durability and low maintenance of modern composite materials.

## GRAD® RAIL ACCESSORIES

### Replacement Clip

For replacement of damaged clips, 50pcs

ECOGDRGC

### Half Clip

For skirting and narrowing boards, 50pcs

ECOGDCLH

### Angle Clip

For installation of angled boards, 50pcs

ECOGDCLA

### Sliding Clip

For board spacing adjustments, 50pcs

ECOFDCLS

Incl. M5 x12 Screws

### Rubber Strip

2000mm x 55mm x 4mm, pack of 2

ECOGDRBST

### Clip Grip

Prevents board slippage, 50pcs

ECOGDCLG

### Starter Bracket

Vertical board support

ECOGDSB

### Rail Connector

Links sections of Flat Rail, 20pcs

Small: ECOGDTLKS  
Medium: ECOGDTLKM  
Large: ECOGDTLKL

### Removal Tool

For removing cladding boards, pair

ECOGDK

# BENEFITS OF

# FORMA® CLICK

## Composite Cladding For Grad®

- **Reduce Installation Time By 50%** - Pre-grooved boards effortlessly click into Grad aluminium rails for speed
- **Precision Spacing** - Factory set clips guarantee accuracy with no on-site adjustment needed
- **Installation Flexibility** - With three board widths and four Grad rails, designers are free to create a wide range of façade for maximum visual impact
- **Versatile Applications** - Suitable for installation on any surface from house w, walls, and ceilings to garden rooms, screens and more
- **Perfect Finish With No Visible Fixing** - No damage to the surface of the Forma Click composite boards
- **Low Maintenance** - No painting, staining or sealing required
- **25 Year Warranty** - Durable, UV stable capped composite boards that will look beautiful for years to come
