Noir Grande composite decking

GRANDE COMPOSITE DECKING

25 YEAR WARRANTY

FSC www.fsc.org

Similar to our Forma range, our Grande decking boards are made up of 95% recycled material and uses advanced co-extrusion technology which generates an externally durable outer layer.

As the name suggests, the Grande board is 50% wider than a standard decking board at 225mm – for an elegant and contemporary look – which has the added benefit of being quicker to fit.

Our capped technology and advanced brushing techniques create a composite decking board with exceptional anti-slip values, is UV stable and comes with a 25 year guarantee.

We offer two dual-sided Grande boards, available in a choice of the rich, dark Noir and Mocha tones (new for 2026) or the lighter Dovetail and Chateau shades. Each side features a natural-looking woodgrain finish.
