EASY FIT NON-COMBUSTIBLE ALUMINIUM DECKING SYSTEM

SEPIA BROWN
Easy Fit Non-Combustible
Aluminium Decking

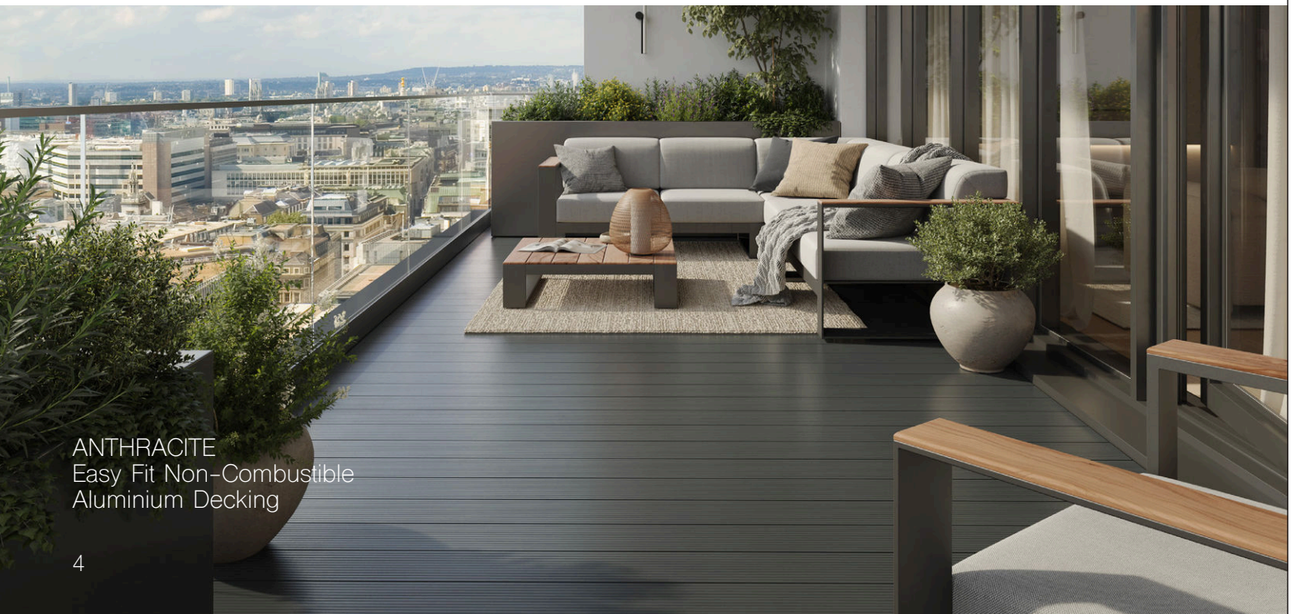

Ecoscape's Easy Fit Aluminium Decking System is a non-combustible, A2-rated solution designed for high-rise balconies, terraces, walkways, and decking areas. Manufactured from 6063 T6-grade aluminium and finished with a durable, slip-resistant Qualicoat Class 2 coating, it combines long-lasting performance with a refined, modern aesthetic and clean hidden fixings. Made with recycled content and fully recyclable at the end of its life, it's a sustainable, low-maintenance choice for contemporary outdoor design.

BEIGE GREY
Easy Fit Non-Combustible
Aluminium Decking

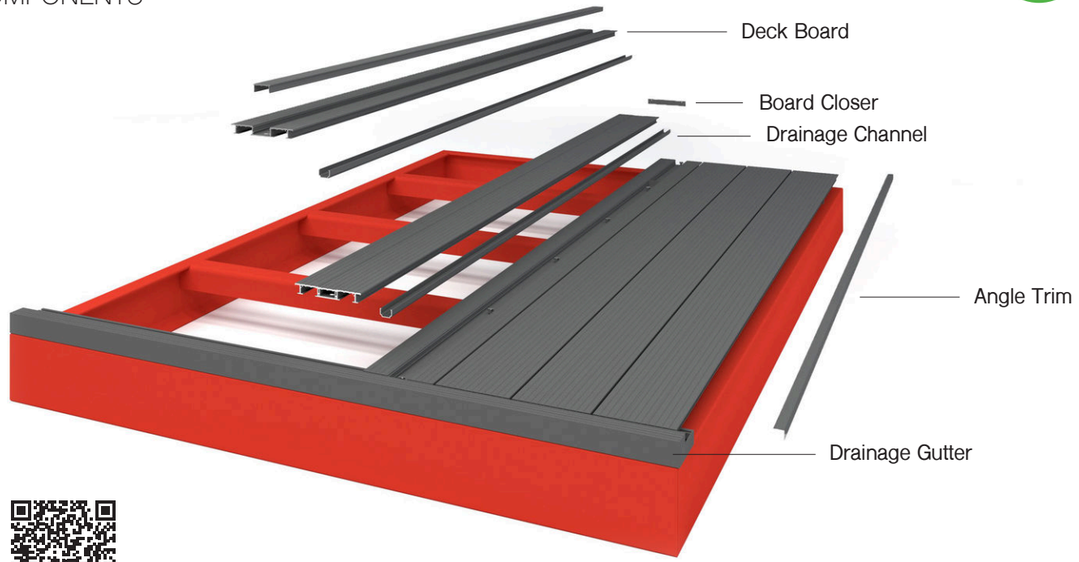

The collection is offered in five contemporary colours, with the flexibility to specify bespoke RAL shades for a tailored finish. The design delivers a bold architectural statement, adding striking contrast and a sleek finish to any outdoor space. For complete compliance and a seamless fit, pair the decking with our non-combustible pedestals and aluminium joists.
